

apollo voltage Protector

Professional Protection Equipment

- ◆ Our voltage protector will protect your equipment automatically when the momentary voltage is too high or too low.
- ◆ In the area of voltage-instability, the compressors for air conditioner and the refrigerator are easily damaged by the instable voltage, our voltage protector will provide the best protection.
- ◆ Appropriate to be used in protection of refrigerators, washing machine, water pumps, microwaves, TV, VCD, DVD, computers, etc.

Specifications

Model	VP25				
Voltage	220V (170V~265V)				
Spikes/Surges	√				
High Voltage	√				
Low Voltage	√				
Lightning	√				
Power cut	√				
Power-back surges	√				
Amps	25Amps				
Single phase	√				
Delay time	3 ~ 4 min.				
Connect by	Plug /Socket				
Socket type	NEMA6-15R	UK	German		
					
Plug type	NEMA6-15P	UK	German		
					
Suitable for	Any electrical or electronic equipment (incl. Air con)				
Size (W*H*D)	80*120*63mm	80*120*59mm	80*120*77mm	80*120*58mm	80*120*63mm
